

Full Job Description

Agronomist

Achieve Land and Crop Sciences was formed in 2014 to provide reliable and sound agronomic recommendations to our customers. Working with producers in both Saskatchewan and Alberta, we offer many options to increase production and lower costs. We offer services such as field scouting, nutrition, fertility planning, pest management, soil sampling, tissue sampling, data management and many other services. We take pride in providing a very detailed list of observations and practical solutions for our growers.

We are currently seeking three Full-Time Agronomist to help us deliver our service offerings to our customers. This position will be working with customers in both West Central Saskatchewan and Eastern Alberta, but home location for the successful applicant is flexible.

Role Accountabilities and Responsibilities

- Conduct field scouting visits regarding plant stand/establishment, herbicide timing/efficacy, insect and disease management checks.
- Provide agronomic recommendations to customers.
- Be knowledgeable of current agronomic practices and government agricultural programs.
- Actively maintain up to date knowledge of current industry best practices and trends and communicates relevant information to growers and clients.
- Perform plant tissue tests as needed, including analysis to perform recommendations.
- Conduct customer meetings through the winter months regarding crop input recommendations, soil moisture data, yield data, crop rotation & planning, etc.
- Investigate and evaluate potential opportunities to provide further value to our customers.
- Willingness to work in an outdoor setting, along with overtime as needed during peak season.
- Ability to work out of a home office when not performing in-field functions.
- Other duties as necessary.

Leadership Accountabilities

- Demonstrates exceptional relationship building ability with clients, dealers and the Achieve Land and Crop Sciences members
- Self motivated with a willingness to be curious and wanting to explore the industry
- Believes in the purpose of agriculture and has a passion for our industry
- Strong demonstrated communication skills with our clients, team, and industry stakeholders
- Innovative thinker that solves problems with insight and intuition
- Ability to work independently but also believes in collaboration and team synergy

Qualifications

- A post-secondary degree or diploma in Agriculture or related field.
- Ideally the candidate will have 1 year or more of Agronomy field experience
- Valid Class 5 Driver's License.
- Thorough knowledge of agricultural software programs and applications
- Strong communication skills are needed not only with our customers, but also within our team to further our knowledge and expertise.

We provide a competitive salary with a full benefits program for the successful candidate, including a RRSP plan, company vehicle, John Deere Gator & Trailer, laptop, Ipad, and all other equipment as needed. Flexible work schedule during the winter months.

Job Type: Full-time

Salary: \$60,000.00-\$75,000.00 per year

Additional pay:

- Bonus pay
